Alcohol

Philosophical Statement on Alcohol

Furman University's Vision, Mission, and Values statement guides our pursuit of inspiring purposeful living through transformative experiences that nurture the growth of each individual on an intellectual, spiritual, emotional, and physical level. The University is committed to providing a campus environment free of the abuse of alcohol and the illegal use of alcohol and drugs. The University affirms the abuse and illegal use of alcohol are at odds with the mission of the institution. As such, the University provides alcohol education programs throughout a student's matriculation at the university via on line resources, workshops, written materials and special programs, events and speakers focused on assisting students in enhancing their personal decision-making skills and assessing their values and actions related to the use of alcohol.

The University recognizes that too many college students, both legally and underage, drink to excess. Such abuse can lead to serious health risks and behavioral problems, i.e. violence, sexual assault, accidents, vandalism, and other dangerous acts. Furman's alcohol policy, therefore, grows out of the commitment to maintain a campus environment that supports the educational program and promotes the

making as cornerstones of

the overall educational experience of students at the university. As such, the University provides medical and counseling assistance for individuals who experience alcohol related concerns.

6. The University supports behavior and social interactions that are legal, low-risk, healthy and reflective of the University's values and character.

Alcohol Policy

The purpose of the alcohol policy is to outline Furman's expectations of responsibility and accountability regarding the use of alcohol. Ultimately, decisions about the use of alcohol are the responsibility of the individual within the constraints of the law and university policy.

1. Furman embraces the ideals of a healthy and balanced social environment in which students commit to the institution's mission, model the institution's values, and aspire to the institution's vision.
2. The University upholds and supports all federal and state laws in regard to the regulation and use of alcohol.
3. The goal of the policy is to encourage students to either abstain from the use of alcohol or to make low-risk choices regarding the use of alcohol.
4. The residence halls are unique living units on the campus intended for large groups of students to reside without undue peer pressure related to the use of alcohol. As such, alcohol is not allowed in any of the residence halls on campus.
5. The North Village and Vinings apartment complexes are living units in which those 21 years of age or older have the option to drink alcohol in the privacy of the apartments themselves, however alcohol is not allowed outside the apartments (i.e. not allowed on balconies, porches, stairwells, etc.), nor may be provided to anyone under the age of 21. For alcohol use in the North Village Pavilion, please refer to the [North Village Pavilion Alcohol Use policy](#).

Amnesty Policy

In response to the abuse of alcohol and drugs, the University strives to maintain a balance between student support and accountability. While it believes strongly in addressing student health concerns directly and confronting dangerous behaviors, the University also encourages students to seek help in situations where a student's health is endangered. The University's first priority is to encourage student safety, and believes it is important for students to receive both immediate attention in dangerous situations as well as follow-up support to encourage healthier behaviors.

1. Students who proactively seek medical attention for themselves as a result of dangerous behaviors, such as but not limited to alcohol and/or drug abuse, will be granted amnesty from the University's student conduct process, required to meet with the Dean of Students Office, and given an opportunity to comply with education-related recommendations. When seeking assistance, the student must contact a university official, such as Student Life, Housing and Residence Life, University Police, or Student Health Center, in order to be eligible for amnesty.
2. Students who proactively seek medical attention for their peer's dangerous behaviors will not be charged with an alcohol or drug consumption/possession violation(s). When seeking assistance, the student must contact a university official, such as Student Life, Housing and Residence Life, University Police, or Student Health Center, in order to be eligible for amnesty. Students may be required to meet with the Dean of Students Office and given an opportunity to comply with education-related recommendations. Seeking help for another student does not preclude a student from being granted amnesty for herself or himself at a future date.
3. At the follow-up amnesty meeting, the Dean of Students Office will have a conversation intended to support student development through educational means and will recommend a specific course of action for that student to avoid being charged with disorderly conduct.
4. The course of action may include notifying parents, attending an alcohol education program, or any other recommendation deemed appropriate by the Dean of Students Office. Should the student

Disruptive behavior may include, but is not limited to: non-approved use of electronic devices (including but not limited to cellular telephones); cursing or shouting at others in such a way as to be disruptive to the instructional process within the classroom; persistently speaking without being recognized or interrupting other speakers; behavior that unnecessarily disturbs the class from the subject matter or discussion; or in extreme cases, physical threats, harassing behavior or personal insults. **Faculty members will submit an incident report through the Associate Academic Dean's office for review and final determination of whether to bring student conduct charges.**

reasonable option, individuals may make a report to Student Life to begin either a formal or informal
resolution process. Student Life may make a referral to other appropriate entities on campus, such as
Human Resources, for resolution. Retaliation for filing a report is strictly prohibited.

1. Assault/Battery

Off-Campus Conduct

Student conduct action may be taken on the basis of any conduct, on or off campus, which would violate the University's Student Conduct Code or local, state, federal, or international laws. Alleged violation of any international, federal, state, or local law may also be subject to appropriate criminal or civil action.

Conduct and/or activity by members of the student body living in, or hosting functions at, off-campus locations which have the effect of unreasonably interfering with the rights of others is prohibited. This standard of conduct recognizes and affirms a responsibility to respect the rights of others appropriate to the setting in which one lives. It also recognizes the duty and responsibility of Furman students to control the nature and size of activities carried out in the community consistent with the standards of the University. Additionally, the University reserves the right to establish policies and procedures regarding eligibility to live off campus. Non-compliance with university policies or procedures subjects a student to university student conduct action.

Retaliation

It is both unlawful and a violation of Furman's Student Conduct Code for members of the Furman community to retaliate against any individual who files a complaint, testifies, or participates in any manner in an investigation or proceeding. The respondent, those supporting the respondent, the complainant, and/or those supporting the complainant are prohibited from retaliating (including but not limited to intimidating, threatening, coercing, or in any way discriminating against the individual) because of the individual's complaint or participation. **Furman will vigorously enforce this prohibition against retaliation.**

Smoking is the leading preventable cause of death, which indicates that non-smokers are also at increased risk of illness. For these reasons, the Surgeon General has urged employers to implement health promotion programs with special emphasis on smoking cessation. In addition, local ordinances have been passed with the intention of restricting the use of lighted smoking materials in public places. As an institution committed to providing a safe and healthful environment, Furman University adopts this smoking policy as well as a smoking cessation program. It is recognized that smoke from cigarettes, electronic cigarettes, pipes and/or cigars is hazardous to health.
