Tammy,

Absolutely! The allegations of harassment stem from an email chain from Dylan sent to Mallory Sidarous and CC'ing Nicole Franklin on 9/3. Nicole Franklin reported this to the police department yesterday. Specifically the line "marketing and communications' insistence on interfering with our newsgathering process is dangerous and detrimental to both press freedom and freedom of speech." Again, I do not believe this statement in and of itself to be harassing in nature. I am merely gathering your side to complete the report. Hopefully, this helps and is the information you need.
