Dear Ms. McMullan:

Thank you for sharing your concerns in your October 16, 2026, letter. I followed up with campus colleagues to facilitate their review and assessment of the security fees for the event. They will follow up with the student organization, as needed, if there are any bill adjustments. Additionally, UTPD's website page providing information about special event security and the related billing for those services is updated to clarify that security billing is conducted in conformance with Chapter 13-1201 of the University's Institutional Rules. The police service request form, accessible via a button on that same website page, has likewise been updated.

Kind regards,
